

Commercial vinyl

Supporting: MSFFL3013 Install commercial vinyl floor coverings
MSFFL3014 Install resilient floor coverings using custom designs and decorative finishes

Practical demonstration checklist

The checklists below set out the sorts of things your trainer will be looking for when you undertake the practical demonstrations for this unit. The performance evidence for the individual competencies are listed separately below.

Make sure you talk to your trainer or supervisor about any of the details that you don't understand, or aren't ready to demonstrate, before the assessment event is organised. This will give you time to get the hang of the tasks you will need to perform, so that you'll feel more confident when the time comes to be assessed.

When you are able to tick all of the YES boxes below you will be ready to carry out the practical demonstration component of this unit.

MSFFL3013: Install commercial vinyl floor coverings

Specific performance evidence	YES
Use commercial grade resilient weldable floor coverings to cut, heat, weld, lay, and pencil and fillet cove, with internal and external mitre:	
• 1 piece, including pre-formed coving (Installation 1)	<input type="checkbox"/>
• 1 custom design with pattern scribe coving (Installation 2)	<input type="checkbox"/>
Cut, lay and chemically weld vinyl floor covering (Installation 3)	<input type="checkbox"/>

General performance evidence	YES
1. Follow all relevant WHS laws and regulations, and company policies and procedures	<input type="checkbox"/>
2. Read and interpret plans and written instructions relevant to the tasks	<input type="checkbox"/>
3. Assess the condition of the subfloor to determine its suitability for the installation job	<input type="checkbox"/>
4. Select the appropriate adhesives, trims and accessories	<input type="checkbox"/>
5. Select the correct tools and equipment, and carry out all necessary pre-start checks	<input type="checkbox"/>
6. Plan the sequence of work tasks to maintain efficiency and quality	<input type="checkbox"/>

Commercial vinyl

7. Check the specifications of the vinyl floor covering against the work order	<input type="checkbox"/>
8. Acclimatise the floor covering according to the manufacturer's recommendations	<input type="checkbox"/>
9. Identify hazards and control risks when handling materials	<input type="checkbox"/>
10. Establish starting point and set out working lines	<input type="checkbox"/>
11. Correctly cut and fit soft underlay and/or pre-formed fillet, where required	<input type="checkbox"/>
12. Lay out the vinyl to achieve correct directional sequence and pattern match	<input type="checkbox"/>
13. Mark and cut the vinyl to the required pattern and shape, with minimal waste	<input type="checkbox"/>
14. Use adhesives and edge strips/accessories according to instructions	<input type="checkbox"/>
15. Weld and fix the materials safely and efficiently	<input type="checkbox"/>
16. Set out and install vinyl skirting, reducer and edge strips, where required	<input type="checkbox"/>
17. Inspect finished installation for problems and rectify faults, if necessary	<input type="checkbox"/>
18. Store or recycle unused materials	<input type="checkbox"/>
19. Clean and store tools and equipment appropriately	<input type="checkbox"/>
20. Clean up work area and dispose of rubbish properly	<input type="checkbox"/>
21. Accurately complete all required documentation	<input type="checkbox"/>

Commercial vinyl

MSFFL3014: Install resilient floor coverings using custom designs and decorative finishes

Specific performance evidence	YES
Cut and lay resilient floor covering using custom designs and decorative finishes, with internal and external mitres for: <ul style="list-style-type: none">• 1 piece and pre-formed coving (Installation 1)• 1 custom designed and pattern scribed coving using commercial vinyl (Installation 2)	<input type="checkbox"/> <input type="checkbox"/>
Cut and lay commercial grade resilient covering using custom design containing logo/motifs, including decorative welding, inlays and borders (Installation 3)	<input type="checkbox"/>

General performance evidence	YES
1. Follow all relevant WHS laws and regulations, and company policies and procedures	<input type="checkbox"/>
2. Read and interpret plans and written instructions relevant to the tasks	<input type="checkbox"/>
3. Assess the condition of the subfloor to determine its suitability for the installation job	<input type="checkbox"/>
4. Select the appropriate adhesives, trims and accessories	<input type="checkbox"/>
5. Select the correct tools and equipment, and carry out all necessary pre-start checks	<input type="checkbox"/>
6. Plan the sequence of work tasks to maintain efficiency and quality	<input type="checkbox"/>
7. Check the specifications of the vinyl floor covering against the work order	<input type="checkbox"/>
8. Acclimatise the floor covering according to the manufacturer's recommendations	<input type="checkbox"/>
9. Identify hazards and controls risks when handling materials	<input type="checkbox"/>
10. Set out and mark motifs, logos or custom designs on the subfloor	<input type="checkbox"/>
11. Lay out the vinyl to achieve correct directional sequence and pattern match	<input type="checkbox"/>
12. Mark and cut the vinyl to the required pattern and shape, with minimal waste	<input type="checkbox"/>
